

Lend your voice to suicide prevention across Australia

Our Voice in Action Lived Experience Workshop

Melbourne (travel costs for those located outside of Melbourne will be funded by **Mindframe**)

While dates for this workshop have been postponed until further notice, you are welcome to submit your expression of interest to attend and we will reach out to you as soon as dates have been confirmed.

Many people within our communities have a lived experience of suicide - be that through having experienced suicidal thoughts, survived a suicide attempt, cared for someone through suicidal crisis, or being bereaved through suicide. **Mindframe** is seeking a broad group of people, from across the country, to become part of a Lived Experience Advisory group who will provide an advisory function to **Mindframe** and its respective projects.

What is **Mindframe**?

Mindframe provides national leadership and support on how to apply best practice principles for safe communication about suicide, mental ill-health, alcohol and other drugs. It is an initiative of **Everymind**, a leading national Institute dedicated to preventing mental ill-health and suicide. Your lived experience and your voice will play an important role informing and guiding suicide prevention activity within **Mindframe** across Australia.

Roses in the Ocean provides training and support for people with a lived experience of suicide to help guide and inform suicide prevention activities. The training will be facilitated by people with lived experience of suicide.

'Our Voice in Action' is a workshop for people with a lived experience of suicide who are ready and keen to explore opportunities to be involved in suicide prevention activities. It is for people who believe they are ready to use their lived experience to help others and inform future direction for suicide prevention.
